## Hitachi Washing Machine Freestanding

Intelligent Series

The Art of Ease

Product Code BD-90XKVEADM

## Intelligent Wash

With this intelligent combination of load detection, sensor-based analysis, automatic dosing, and adaptive movement, the washing machine delivers a truly optimized wash cycle every time. It ensures perfect cleaning, efficient resource use, and maximum fabric care, so your clothes look and feel their best—wash after wash.

The **dirt and rinse sensors** are designed to optimize the washing process by detecting the level of soil of your load during the **Auto Program** cycle. The dirt sensor measures the amount of dirt or soil in the wash water and adjusts the **wash time, water usage and detergent levels** to ensure optimal cleaning. The rinse sensor detects how clean the water is during the rinse cycle and ensures that clothes are thoroughly rinsed without excess detergent left behind meaning your clothes are cleaned to perfection.

## Efficient Inverter Motor

## Inverter Motor

Hitachi Washing Machines with inverter motor technology provide high efficiency, high durability, and low noise levels. Inverter motors outperform non-inverter motors by 25%\*.

## Hygiene Program

The program works by releasing the steam from the bottom of the washing machine's drum, right before it even starts washing. Creating a pre-treatment to loosen up stubborn stains, dirt, and other gunk in your garments.

## Wifi Connectivity

Control your laundry remotely. Control and monitor your Hitachi washing machine from anywhere with Homewhiz; a smart home application that provides a professional assistant to make your life easier!

## Refreshing Steam Program

Refreshing Steam is a short program for 1kg dry clothes. This program makes your ironing duties easier while also refreshing odour on your clothes.

## Aquastop

Protect your laundry from flooding with Aquastop safety valve installed on your washing machine.

## Tub Clean

Keep your washing machine performing well with the Tub Clean function. Use regularly to look after your washing machine.

## Drum Light

Hitachi's interior LED light makes loading and unloading your laundry easier; by lighting up the inside of the drum, it helps you easily spot those smaller items that may get left behind.

\* Comparison is based on performance rating with respect to induction motor under similar load conditions.

\*\*Certified with Allergy UK that the features helps reduce the amount of allergens in your laundry including cat, dog and pollen allergens, as well as bacteria and fungi.

# Specification

Model	BD-90XKVEADM	
Type	Freestanding Washing Machine	
Capacity	Washing Capacity 9 kg	
General	Colours Available	Volcanic Grey
	Interface	Touch LED Display
	Max Spin Speed (RPM)	1600
	Inverter Motor	●
Performance	Water Consumption per wash	78 L per wash
	WELS Registration No.	C02394
	WELS Water Rating	4.5 Star
	Energy Consumption	292 kWh per year
	Energy Rating	4.5 Star
Features / Functions	Double Jet Spray	●
	Single Water Inlet (Cold)	●
	Dirt & Rinse Sensor	●
	Add Garment Option	●
