403L Integrated Kitchen Fridge/Freezer

Integrated Design

Integrated are designed to blend in with cabinetry and other kitchen fixtures, creating a seamless, built-in appearance.

Fresh Cooling System

Features designed to maintain the freshness of food by optimizing temperature, humidity, and airflow. These systems help extend the shelf life of perishable items and ensure better food preservation. Maintains an even temperature to 1°C variance.

Reversible Door Hinge

Reversible hinges can be installed to allow the door to swing out either left or right , depending on the needs of the space or the user's preference.

Inverted Fridge/Freezer

Freezer at the bottom, the fridge section is at eye level, making it easier to access frequently used items without bending over. This design both convenience and energy efficiency.

Humidity Controlled Crisper

Specialised drawer in the refrigerator designed to maintain optimal humidity levels for storing fruits and vegetables. By controlling the humidity, these crisper drawers help prolong the freshness and shelf life of produce, reducing spoilage and waste.
