Benefits

Over 85 years of Stainless Steel know-how make Blanco one of the world leaders in sink manufacturing, which translates to superior products for your home

Deep Extended drainer tray

Taking it right to the edge! A generous drainer sizing allows an extended work area. Enables you to rinse, wash, stack, dry, sort, chop and dispose of waste utilising one sink.

Polyethylene Seal and Sink clips applied.

This unique seal eliminates the risk of water penetrating the cabinet below. It is also bacteria resistant, anti-mould and anti-mildew and does not require additional sealant from the installer. Blanco provides 20% more sink clips than most other brands making this sink one of the simplest to install.

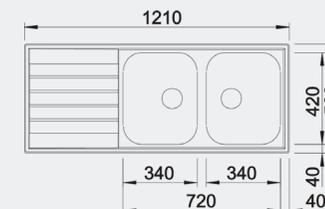

Designer wastes included

No need to purchase separately, sink ready for use when purchased.

Integrated overflow in main bowl

No overflowing of the bowl, prevents damage to the kitchen
