PERFORMANCE MEETS CONVENIENCE

Experience exceptional cooking results with the addition of steam cooking functionality, using between 20-40% steam to unlock fresher flavours, healthier meals and succulent dishes. Plus, achieve maximum cleaning results with minimum effort using pyrolytic cleaning. The automatic cleaning programme burns off food residue from the inside of the oven, making it look new again after the programme has finished. It's the environmentally friendly way to clean your oven without the use of detergents or other harsh chemicals.

SMART COOKING

Let the oven do the work for you and cook with 150 built-in auto programmes. Plus, you can even save the oven settings of up to 10 of your favourite recipes so they can be simply called up at the touch of a button.

MULTI-POINT TEMPERATURE PROBE

Cook like a professional. The multi-point probe measures the internal temperature of your food at three different points for precise cooking results.

MULTI-STEP PROGRAMMING

Pre-set two different steps before you start cooking to allow for utmost versatility to achieve the perfect finish. It's no fuss, set and forget cooking.

REMOVABLE OVEN DOOR

Extra strong four layer glass panel is removable for simple clean up.

NEPTUNE GREY: THE NEW NEUTRAL

An elegant aesthetic that incorporates modern minimalistic design trends with an on-trend netural colour, Linea is characterised by symmetrical lines, balance and light. Any combination of premium Linea appliances will make a real style statement in the kitchen.
