LIEBHERR

Type	Fixed door / Under-worktop appliance for integrated use
Energy consumption (kWh/yr) / Star rating	130 / 2.5
Total volume	107l
Noise output	36 dB(A)
Frequency / voltage	50/60 Hz / 220-240 V~
Connection Rating	2.0 A
Aperture dimensions in cm (h / w / d)	82-88 / 60 / min. 56.5
Controls	
Type of Control	2.4" TFT-colour display, touch- & swipe Digital temperature display
Door alarm	visual and acoustic
Alarm in case of malfunction	visual and acoustic
Fridge compartment	
Forced air system	PowerCooling with FreshAir activated charcoal filter
Interior light	LED ceiling lighting
Features	
Door hinges	Reversible door hinging, right
Replaces door seal	yes
EAN-Nr.	9005382301890
Alfresco environment	
To be installed under cover and away from direct sunlight.	

Features

Display lock

At summer parties, children may find the illuminated display on the outdoor fridge irresistible. That's why your Liebherr has a display lock. It reliably prevents unintended changes to the settings. Of course, you can also easily deactivate the display lock when needed.

Divisible glass shelf

No need to remove an entire shelf for tall items – the divisible glass shelf makes it easy. Just slide the front half above the back to create extra height for carafes or tall containers. It ensures you still have space for snacks, bottles, or other essentials – simply ideal for outdoor events, garden parties and barbecue sessions.

Glass shelves with BlackSteel-look decorative trims

Practical elegance – even outdoors: transparent glass shelves make it easy to organise your drinks and snacks. With one simple adjustment, you can adapt the height of the shelves to fit bottles, platters, or anything else you need. The BlackSteel-look decorative trims add a modern and stylish touch to the interior.

LED ceiling lighting

When you open the fridge, you don't want to spend time searching for your food – especially during an outdoor barbecue. The LED ceiling lighting ensures optimal visibility: it illuminates the interior of your fridge, and with LEDs positioned at the front, even small items won't be left in the shadows.

Lowest pull-out shelf

Extra storage space is always welcome, right? The lowest pull-out shelf in the outdoor fridge offers just that extra space: it is designed to keep all your items and bottles secure and allows you to reach even the lowest items with ease. The pull-out shelf combines convenience with efficiency ensuring everything is always within easy reach.

Power failure alarm

During a garden party, you might not always keep an eye on your outdoor fridge. But no worries: it reliably sounds the alarm in case of a power failure. The display shows the highest temperature reached. And you'll never be alerted unnecessarily – if there's no critical rise in temperature during a brief outage, the alarm stays silent.
