--------------------------------------	--------------------------	-------------------	------------------------------------

Internal Automatic Icemaker	Fresh Drawers	Multi-flow airflow system	Full Width Door Bins
-----------------------------	---------------	---------------------------	----------------------

SpillSafe™ glass shelves

BENEFITS

Non-plumbed chilled water
 Designed to quench the needs of even the thirstiest family member, the non-plumbed water dispenser built into the fridge door will eliminate thirst in your household with refreshing convenience.

Outstanding 4-star energy rating
 Our 4-star energy rating means better efficiency and savings for your family. You can save up to \$225 in running costs over 10 years*. *Savings indicative based on average NSW 24.8c/kWH vs 3-star energy rating (see Energy Rating Calculator)

Seal in the Freshness
 Our FreshSeal™ crispers are sealed and come with a humidity slide that you control. The seals assist in preventing moisture loss whilst the humidity slide assists in creating the right environment for keeping food fresher for longer.

Ice when you need it most
 With the convenience of an automatic ice maker, we've got your ice needs covered. By continuously replenishing itself, you will always have ice available for your family or last-minute guests.

A space for everything
 Maximise the organization in your fridge with the 2 NEW FreshDrawers. Located under the FreshSeal crispers, store your meat in one and deli items in the other, keeping your shelves clear and your food at your fingertips.

A show stopper
 Make your new French door fridge the centrepiece of the kitchen. With a new sleek, flat door design and pocket handles for easy opening, you will be stopped in your tracks every time you see it.

Maximise the space, your way, and without compromise
Our fridges allow you to decide how you want your fridge installed. Use the cabinet flush option to create a seamless flow with your kitchen cabinetry. Alternatively, lineup the fridge with the doors just outside the cabinet to maximise the space you have available. Either option does not compromise on your access to the fridge or freezer with wide door openings on both.

Freshness with multi-flow airflow
The multifold airflow system maintains an even temperature throughout - keeping your food fresher for longer

A complete storage solution
With 8 full width door bins, everything from small jars to tall bottles will have its own place.

Easy to clean
Spills happen, but when they do, the world doesn't have to end. The Westinghouse SpillSafe™ glass shelves help with the mess by containing the spilt liquid to one shelf, so you have less to clean.
